RE: Letter from Crockett Engineering dated 1-24-2022 regarding VH Acres – Sewer Flows

Dear Mr. Florea:

In regards to the above-referenced letter, the Sewer District concurs with the allocating the following flow rates to their respective lots:

- | | | |
|---|---------------------------|---|
| 1 | 600 gallons per day (gpd) | Lot 1 |
| 2 | 1,000 gpd | Lot 2 |
| 3 | 2,000 gpd | Lot 3 and |
| 4 | 1,200 gpd | Lot 4 all of the FINAL PLAT of VH ACRES, PLAT No. 2 |

as shown by final plat recorded in Plat Book 49, Page 14, Records of Boone County, Missouri. These flow rates should be memorialized in an updated agreement between the BCRSD and VH Properties, LLC *et al.* Such an updated agreement should include a permit from the BCRSD to the lot owner allocating wastewater treatment capacity. Any such permit should be recorded in the land records to alert future property owners to the wastewater limitations on the lot.

If you have any questions, please call me at 443-2765.

Sincerely,
BOONE COUNTY REGIONAL SEWER DISTRICT

Tom Ratermann
General Manager
