SUBJECT: BCRSD Mission Statement - Update

Current Mission Statement:

Our mission is to provide superior wastewater management and related services to protect public health and the environment now and in the future.

During the February 2022 Board of Trustees regular meeting, a request was made of staff and trustees to submit and organize sound bites and examples to be used for the BCRSD Mission Statement Revision. Staff is still organizing these items and considers this matter appropriate for the Operating Strategy Committee. Staff requests a meeting scheduled for April 2022.
