All-

We have reviewed the revised Plans and Specifications and have no further questions or comments. Please submit 2 signed and sealed hard copies and 1 signed and sealed digital copy of the current Plans and Specifications. One hard copy will be stamped approved and returned to BCRSD and one hard copy will be retained for our record. If more hard copies are needed to be stamped approved, please include them and we will stamp them approved and return them.

I will be working on the approval letter. Because this project does not require a construction permit, the approval letter will contain the project description and conditions of approval. The approval letter cannot be released until the final plans and specs are received.

Please keep in mind that the federal wage rates will need to be updated prior to bid. The suggested course is an amendment or addenda to the current specifications rather than incorporation directly into the final P&S, which would trigger an additional review.

Please don't hesitate to contact me with any questions or concerns.

-Patrick
