Tom,

See the snip below from draft sewer development agreement. I would request that the board be made aware of this forthcoming request and coordination needed. I'm not exactly sure when this will be headed to council, but it is likely that we potentially could need the board to take some form of action in March. I thought they would want a heads up. I'll have more to share after the lawyers get done reviewing. Thanks.

7. Property Owner shall facilitate BCRSD's inspections of, and obtain appropriate approval from BCRSD regarding connection to, the BCRSD sewer line that connects with the City sewer system. Parties shall consult with each other regarding work on the Development and shall advise the BCRSD of work on Development. Parties shall notify BCRSD of this Agreement.
