

Foster, Joe

Subject: FW: report on the Greater Bonne Femme Watershed Initiative for the City of Columbia, City Council

Timeline for the project update

During the last Board meeting there was a question as to whether the Board needed to 'approve' the District to spend time on this initiative

Thanks,

Joe Foster

Hi Joe,

I think BCRSD would be involved with the Implementation Committee, and the Planning Subcommittee.

The Implementation Committee will start up meetings again in August. I schedule the meetings for two hours, but they rarely go that long. The Committee meets every two months, and those meetings will continue through December, 2025.

The Planning Subcommittee hasn't started meeting yet – it will probably be September or October before that subcommittee starts up. The schedule would be the same – every other month for a maximum of two hours.

Once we have a draft watershed management plan put together (late summer 2025), we may ask for review by committee members, so there would be a bit of extra time involved there.

I hope this helps!

Thank you,

Lynne
