Subject: Information Technologies Request For Proposal - Progress Report

Dear Board of Trustees,

We have received a deliverable document from IT Solutions, who was hired to examine our system and help us draft the framework for a request for proposal we intend to advertise soon. There will be a draft document of this for legal review next week, and we intend to have the reviewed draft version of this RFP e-mailed to the board for review sometime during the first week of May. We would ask that you review this RFP and send us any questions that you have prior to the May board meeting. If the RFP looks acceptable to the board, we would then like to advertise for these services after the May board meeting. We have been reviewing these requirements in combination with the pending billing software RFP to make sure the two systems will be compatible.
