Dear Board of Trustees,

I would like to report that as of last Friday, House Bill 6 was approved by the Missouri House and Senate. A \$10,000,000 line item was included for sewer infrastructure intended for Boone County and BCRSD. The bill would still have to be approved by the governor. We believe there will be upcoming discussions with the Governor’s staff over this. It is my understanding that there is a July 1st deadline to have bills signed, but process is still underway, and I will continue to keep you informed of the progress. The bill does require a local match amount, although there are no specifics about what that entails. That will likely be worked out in the coming months but would likely be up to a 1:1 match requirement.
