Dear Board of Trustees,

We received one quote from Alliance pump for RFP #10-2025. They have quoted 50 Barnes Razor ZOGP2072L pump at a price of \$1,500 per pump for a total of \$75,000. This is the same pricing that was quoted to us previously in the year. This pricing will only be good until the end of the year when prices will go up again.

We have had great success with these pumps and by making this purchase we will ultimately be able to replace a significant portion of the pumps within the Hillcreek subdivision. We have also discovered that there are several locations within some of the smaller public pump stations that these pumps will work as replacement pumps.

I'm seeking a motion to allow the executive director to purchase 50 of these pumps at a purchase price of \$75,000.

- PRICE INCLUDED IN PUMP LINE 1

Note: Recommend placing 50-unit orders with 25-unit orders in mid- December ship immediate and 25 units separate order to ship March 30, 2025. These units have a 5-year warranty and free freight.

If you place only a 25-unit order in Mid-December, the price is the same. The benefit of placing two 25-unit orders is the second order maintains the current pricing. Crane Pump may increase pricing after the first of the year.

Thank you for your consideration.
