Any additional portions of the fence needed to be removed by the contractor to complete the work should be bid as follows: 1) Any demolition work should be incidental to the base bid. 2) Any new fencing required to be re-installed will be paid at the unit rate described in Base Bid Item #5 "8' tall wood fencing"

6. The exact dimensions of the top of the casting between existing precast barrels and existing precast lids on the lift stations is unknown but believed to not be smooth or flat. The contractor may sawcut a smooth joint if the existing joint is irregular or not capable of being replicated with the extension barrel. Alternatively, the contractor may remove the lid and coordinate the exact dimensions with the precast concrete provider to avoid saw cutting the top of the existing barrel. The contractor shall determine their means and methods for this task and include in the bid.
