Dear Board of Trustees,

Approximately 26 candidates have applied for the Engineering position to date with approximately 4 candidates having varying levels of experience in wastewater collections and treatment, and one of those possessing qualifications that meet the Engineering Manager criteria in the job description. I have begun scheduling initial interviews which will be happening the last week of February, and then trying to schedule second interviews after that. I am trying to time out this hire with the move over to the Boone Electric Temporary space, so there is adequate room for staff after this hire is made. I will continue to keep you posted on the progress.

Jesse Stephens, P.E., Executive Director

Boone County Regional Sewer District (BCRSD)
