Dear Board of Trustees,

We have made redline revisions to the AWMP and have sent to DNR for re-review and are coordinating with McClure Engineering to make the requested revisions. The Clean Water Commission did proceed to amend its rule making pursuant to section 10 CSR 20-6.010 regarding Construction and Operating Permits. We anticipate having comments addressed and in a format for the Board of Trustees to approve at the May meeting. We will proceed to have our final public hearing in June prior to the Clean Water Commission Meeting In July.
