We're Temporarily Moving

The District headquarters will soon undergo a complete renovation to improve our facilities, enhance your experience, and support our continued growth. During this time, we will be temporarily relocating our operations to ensure uninterrupted service, with our move scheduled for **April 27th**.

*1413 Rangeline Street
for Billing-Related Needs*

Our temporary office will be located at 909 Business Loop 70. Please note that this location will have limited access for customers. For any customer service or billing-related needs, we ask that you visit our dedicated service space in the Boone Electric Cooperative lobby, located at 1413 Rangeline St.

We're genuinely excited about the improvements ahead and look forward to welcoming you back in late Summer of 2026 to an updated headquarters once renovations are complete.

If you have any questions about our temporary locations or the upcoming transition, please don't hesitate to contact us. We appreciate your patience during this transition.
