Dear Board of Trustees,

I'm seeking a motion to allow the developers of Plat No. 1 of the Reserve at Old Hawthorne and the City of Columbia to connect to the BCRSD Gravity main located on the north side of the South Fork of Grindstone Creek. This property is located within the City limits of Columbia and is part of a cooperative agreement area with the City. The property is described in Exhibit A of the general warranty deed recorded on Page 42 in Book 6172 of the Boone County Records. The system will tie into BCRSD Manhole #12736 and #12738. The Engineer has included inspection notes on the plans for BCRSD to be notified for inspection prior to connection to these manholes. This line ultimately flows to the City of Columbia WWTP. Below is a location map of this development for reference.
