Dear Board of Trustees,

We've been approached about a facility that is experiencing issues with the loading with its current on-site sewer system. The remedy is to expand the system to a DNR-permitted system. Since this is in unincorporated Boone County, they will need to work with BCRSD for permitting. I have proposed to them that an agreement similar to what we are working out with Les Bourgeois may be the most prudent route. The facility location is below. The system would be a non-discharging system. The facility is located on East Bass Lane as shown below:

Jesse Stephens, P.E., Executive Director
Boone County Regional Sewer District (BCRSD)
